

## Standard Offer Service Rates Decrease June 1, 2011 for Small Commercial Customers; Summer Rates Return with June Billing

Pepco's Standard offer Service (SOS) supply rates for District of Columbia small commercial customers will decrease starting June 1, 2011. If you have not chosen an alternative electricity supplier, you are on Standard Offer Service and Pepco buys electricity for you, charging you rates approved by the District of Columbia Public Service Commission. The cost of Standard Offer Service supply is shown in the "Generation Services" and "Transmission Services" portions of your electric bill.

The proposed new rates are based on market prices obtained through a competitive bidding process overseen by the Public Service Commission. Providing an average dollar-amount decrease for commercial customers is not meaningful, since use varies significantly among the many sizes of commercial customers.

To learn more about Standard Offer Service, visit [pepco.com](http://pepco.com) and check out the District of Columbia Customer Choice section of our site. The Web site also has information on conservation tips and more information on rates. Information also is available at 202-833-7500 between 8 a.m. and 7 p.m., Monday through Friday. To help you evaluate offers if you choose shop for an alternative electricity supplier, your bill contains the "price to compare" for "Generation and Transmission Services."

Also, please note that summer rates take effect with the billing month of June. Pepco, as with many other utilities, charges different rates for electricity use in the summer (June-October) than it does in the winter (Nov.-May). Energy costs more in the summer than winter because demand for electricity is higher in the summer.

Below are the SOS rates for Small Commercial customers schedule to take effect on June 1, 2011. Please note that these rates are subject to approval by the Public Service Commission.

	Summer Billing Months (June-October)	Winter Billing Months (November-May)
