

Standard Offer Service Rates Decrease June 1, 2011; Summer Rates Return with June Billing

Pepco's Standard Offer Service (SOS) supply rates for District of Columbia residential customers will decrease June 1, 2011. If you have not chosen an alternative electricity supplier, you are on Standard Offer Service and Pepco buys electricity for you, charging you rates approved by the District of Columbia Public Service Commission. The cost of Standard Offer Service supply is shown in the "Generation Services" and "Transmission Services" portions of your electric bill.

The new rates are based on market prices obtained through a competitive bidding process overseen by the Public Service Commission. The average monthly bill for residential customers is expected to decrease 10.7 percent, or \$10.46 under the new rates. The average bill will decline from \$97.96 to \$87.49. Of course, each customer's bill is based on individual use, so your bill may change more or less than the average.

To learn more about Standard Offer Service, visit www.pepco.com and check out the District of Columbia Customer Choice section of our site. The Web site also has information on conservation ideas and low-income customer assistance programs. Information also is available at 202-833-7500, between 8 a.m. and 7 p.m. Monday through Friday.

Listed in the chart below are the new Standard Offer Service rates including a comparison of summer and winter rates. Also, please note that summer rates take effect with the billing month of June. Pepco, as with many other utilities, charges different rates for electricity use in the summer (June-October) than it does in the winter (Nov.-May). Energy costs more in the summer than winter because demand for electricity is higher in the summer. Customers who have selected an alternative electricity supplier are subject only to the Distribution Services charges below, modified as appropriate by the application of the Billing Credit.

To help current SOS customers evaluate offers from alternative electricity suppliers, your bill contains the "price to compare" for "Generation and Transmission Services."

RATE SCHEDULE	Summer Billing Months (June-October)	Winter Billing Months (November-May)
RESIDENTIAL "R" - available to single-family homes, individually metered units in multi-family buildings and to many master-metered apartments.
