

## Winter Rates Return with November Billing

Pepco, as with many other utilities, charges different rates for electricity use in the winter (November-May) than it does in summer (June-October). Energy costs are less in winter than summer because demand for electricity is lower in the winter. The following charts compare rates between winter and summer periods for several different residential rate schedule categories. The change to winter rates will begin with the billing month of November 2010. Your rate schedule appears in the "Meter Summary" portion of your bill.

Customers who receive Pepco's Standard Offer Service (SOS) are subject to the Distribution, Transmission and Generation Service charges below. These charges reflect revisions in SOS (generation) rates that took effect June 1, 2010. Customers who have selected an alternative electricity supplier are subject only to the Distribution Service charges below, modified as appropriate by the application of the Billing Credit.

RATE SCHEDULE	<b>WINTER</b> <b>Billing Months</b> (November-May)	<b>SUMMER</b> <b>Billing Months</b> (June-October)
<b>RESIDENTIAL "R"</b> - available to single-family homes, individually metered units in multi-family buildings and to many master-metered apartments.
