

EDI Certification Testing Schedule for 2019 EDI/GISB Testing Schedule

Test Batch (Month)		Notification Deadline	Testing Start Date
1	(Jan 2019)	12/21/18	1/8/19
2	(Mar. 2019)	2/15/19	3/5/19
3	(May 2019)	4/19/19	5/7/19
4	(July 2019)	6/21/19	7/9/19
5	(Sept. 2019)	8/23/19	9/10/19
6	(Nov. 2019)	10/25/19	11/5/19

PHI schedules EDI testing every other month. To be included in a test batch, Suppliers must notify Supplier Relations by the notification deadline date listed.

To qualify for EDI testing, new Suppliers must be licensed by the appropriate state regulatory agency and must have **completed** the on-line registration via the Supplier Contract Management System prior to the notification deadline date listed above. A testing registration form will be sent to you after Supplier Relations has received your on-line submission.

The use of GISB is strongly recommended in all of our regions. A connectivity test is required prior to the commencement of the EDI Certification Test process.

Questions regarding EDI Certification Testing may be referred to the Supplier Relations team by email at pepcosupplier@exeloncorp.com (Pepco DC/MD), dplsupplier@exeloncorp.com (Delmarva Power DE/MD), or acesupplier@exeloncorp.com (Atlantic City Electric).
