

EDI Certification Testing Schedule for 2023 EDI/GISB Testing Schedule

Test Batch	Month (2021)	Notification Deadline	Testing Window Starts the Week of:
1	N/A	N/A	N/A
2	March	2/10/23	3/6/23
3	May	4/14/23	5/8/23
4	July	6/16/23	7/3/23
5	September	8/18/23	9/11/23
6	November	10/13/23	11/6/23

PHI schedules EDI testing every other month. To be included in a test batch, Suppliers must notify Supplier Relations by the notification deadline date listed. We will reach out to suppliers to schedule (date/time) their EDI testing during the testing window.

- New Suppliers/Multiple Scheduling Coordinators – All applications, documents, and collateral must be received by the Notification Deadline.
- EDI Vendor Switching – Please contact Supplier Relations at the email(s) below for an EDI GISB form and return it by the Notification Deadline. If you have a specific switch date, please indicate the requested date in your email.

To qualify for EDI testing, new Suppliers must be licensed by the appropriate state regulatory agency and must have **completed** the on-line registration via the Supplier Contract Management System prior to the notification deadline date listed above. A testing registration form will be sent to your EDI contact after Supplier Relations has received your on-line submission.

The use of GISB is strongly recommended in all our regions. A connectivity test is required prior to the commencement of the EDI Certification Test process.

Questions regarding EDI Certification Testing may be referred to the Supplier Relations team by email:
