

# IMPORTANT RATE INFORMATION FOR PEPSCO MARYLAND CUSTOMERS

## April 2023 Rate Adjustment

In June 2021, the Maryland Public Service Commission approved Pepco's multi-year plan, which included delivery service rate increases in 2021, 2022 and 2023. While the Commission directed that certain tax benefits and adjustments be used to fully offset the 2021 rate increases and partially offset the 2022 rate increases, the full rate increases for 2023 will go into effect in April 2023.

After the April 2023 rate adjustment, the average residential electric bill for a customer using 811 kilowatt-hours per month will increase by \$2.51 per month. Individual customer bill increases may differ slightly from these amounts, depending on household energy use. See [pepco.com/MYPMD](https://www.pepco.com/MYPMD) for details.

As a reminder, Pepco offers bill payment assistance and payment arrangements for customers. More information can be found at [pepco.com/EnergyAssistance](https://www.pepco.com/EnergyAssistance).
