

Pepco will adjust supply rates for Standard Offer Service (SOS) customers in the District of Columbia on June 1, 2023, resulting in an increase to the rates you pay for the electricity you use. The new rates are based on market prices obtained through a competitive bidding process overseen by the Public Service Commission of the District of Columbia (PSC). Pepco does not profit from the supply portion of your bill. If you have not chosen a competitive supplier, you are on SOS supply rates and Pepco buys electricity for you, charging you rates approved by the PSC. The cost of SOS supply rate is shown in the “Generation Services” and “Transmission Services” portions of your electric bill.

Based on the change to the supply rates, the average total monthly bill for residential customers is expected to increase by 14.0 percent or \$12.18 under the new rates. Please note that summer rates take effect with the billing month of June. Pepco, as with many other utilities, charges different rates for electricity use in the summer (June–October) and in the winter (November–May). To learn more about SOS rates, visit pepco.com and view the District of Columbia Rates and Tariffs section of our website. Information is also available by calling 202-833-7500 between 7 a.m. and 8 p.m., Monday through Friday. To help you evaluate offers if you choose to shop for a competitive supplier, your bill contains the “price to compare” listed under the Supply Charges section of your bill. Please see the SOS rates for residential customers that take effect on June 1, 2023 on the reverse side.
