

# SAVE THIS SUMMER WITH THE PEAK ENERGY SAVINGS CREDIT.

With the Peak Energy Savings Credit, you can receive a credit off your bill when you make small changes around your home to reduce your energy use on **Peak Savings Days**.

On average, you can receive a \$5 credit on each Peak Savings Day.

## Here's how it works:

- No enrollment – We'll notify you the day before a Peak Savings Day
- Save energy – Reduce your energy use during a few specified hours on Peak Savings Days
- Get credits off your bill – \$1.25 off for every kilowatt hour you save below your average energy use

## Saving energy is easy on Peak Savings Days.

Follow these tips on a Peak Savings Day. The more you reduce the more you can save.

- Lower your blinds in the summer to keep cool air inside
- Raise your thermostat 1-3 degrees, if health permits
- Unplug unused electronics, like phone chargers or coffee makers, when you are not using them
- Plan to use large appliances, like washing machines or dish washers, before or after designated hours
